

San Lorenzo Valley Unified School District

2015-16 Bring Your Own Device (BYOD) Laptop Initiative Newsletter

As the 2015-16 school year quickly approaches, we are excited about our implementation of our 1:1 BYOD initiative for grades 6-12. This initiative will allow students to be more personally involved in their learning, gaining 21st century skills with technology as an essential learning tool. We understand that technology is a tool and not a replacement for textbooks and other traditional tools. Usage of laptops in the classroom will be at the discretion of the teacher. Laptops will be available at school for students who do not own their own laptop to use during class time. If you need financial assistance in purchasing a laptop please contact the SLVUSD District Office at 831-336-9672. For more information, please see the [BYOD informational webpage](#).

Student Owned Laptops

Students who bring their personal laptop to school are responsible for the safety and care of their belongings. This personal property is the responsibility of students and they should consider the following:

- Label the laptop with the student's first & last name
- Keep the laptop with you at all times
- When in a backpack or case, handle with care
- Please store passwords and log-in information in a secure location
- Charge your laptops each day before
